| esc | escape / exoot | † | dood gevonden |

Deze Avifauna van de Krimpenerwaard is een bewerking en update van de *Avifauna Krimpenerwaard, editie 2004* (C.G.A. Oskam). De belangrijkste bron voor de waarnemingen vanaf 2004 is het online invoerportaal krimpen.waarneming.nl. Indien u waarnemingen mist in deze lijst, zorg dan dat deze hier alsnog ingevoerd worden met voldoende aanvullende informatie, zoals een beschrijving van de vogel(s) en de omstandigheden, het liefst met een foto en/of geluidsfragment.

De informatie over de status en trend van de vogelsoorten is indicatief. De trend geeft voor relevante soorten aan of deze sinds het uitkomen van de Avifauna 2004 en toe- of afname hebben laten zien. Raadpleeg de legenda voor uitleg over de symbolen.
